Fast Track your Business with Ovvi's Smart POS Solution

Ovvi's core software is made for restaurants and provides support to broad variety of restaurant concepts and work flows. Restaurant Point of Sale Systems do much more than the typical POS cash register. Standard cash registers simply act as a place to store money, but in comparison, a customized restaurant POS system bundled with a restaurant POS hardware and software will allow your business to do so much more. **MEET OVVI!** Ovvi will help your restaurant increase efficiency and eliminate waste in supplies and manpower. Have all your restaurant's important information in one complete and integrated system. Take advantage of all of the crossover information that Ovvi provides and that you will need to make the right decisions to grow your business.

The Order Process

Ovvi's intuitive menu design allows for an easy ordering process, faster checkouts and comes with multiple split check capabilities.

Look at Ovvi to help you manage tickets and route order histories along with refunds and returns.

Grab upto the minute ticket management reporting to allow for table side and self orders. The Ovvi platform works seamlessly for every order type.

Inventory Management

Manage and maintain fully customized menu items with modifier, choice items, combo meals, recipe management, ingredient tracking along with multiple pricing and tax options.

Ovvi thinks like a restaurant. It allows you to intuitively track all the details that make up the products you sell. You always keep your ingredients perfectly stocked and manage every ingredient that make each dish a work of art. Our one touch purchase order solution enables you to reorder items with an ease from multiple vendors.

Table Management

Table Layout allows you to set up a floor plan, view open and seated tables, open an order, and assign tables to servers.

From our unique table layout screen, you can create multiple sections for your restaurant like Dining room, Bar, Patio and many more. We also have a wide array of tables, chairs, booths, walls, plants, restroom, background colors to select from. You can also add pool tables and bowling lanes.

Our easy-to-use interface is designed to keep up with the ever changing needs of your business. Ovvi can help redesign your floorplan or add tables as needed. Each of these can be handled with ease and simplicity. This feature also enables you to see which server is working a table, how long it has been open, and the total ticket amount as well. Ovvi can also flawlessly split as many bills as required between tables with its intuitive interface, which makes it easy for employees to learn and navigate.

Our reservation module can quickly allocate open tables and can avoid double or duplicate reservations.

ovvi

Hassel Free Employee Management

Ovvi's Employee Management platform offers complete payroll and tip calculation solution. In it, there is one centralized hub for payroll and HR enables you to seamlessly track employee clock in and clock out operations.

Features:

Create Employee Profiles & Permissions

Create employees from our online cloud solution or POS with ease where you can also set standard and overtime wages. Keep your peace of mind with Ovvi's activity logs and secure employee permission sets for your POS and Dashboard.

Time Cards & Payroll

View and edit employee time cards from your POS, keeping a close tab on schedules, wages, and permissions.

Easy Scheduling & Shift Management

You can schedule and publish your shift schedules for weeks or months in advance. Gain immediate insight into the times worked across all locations, as well as employee time off schedules.

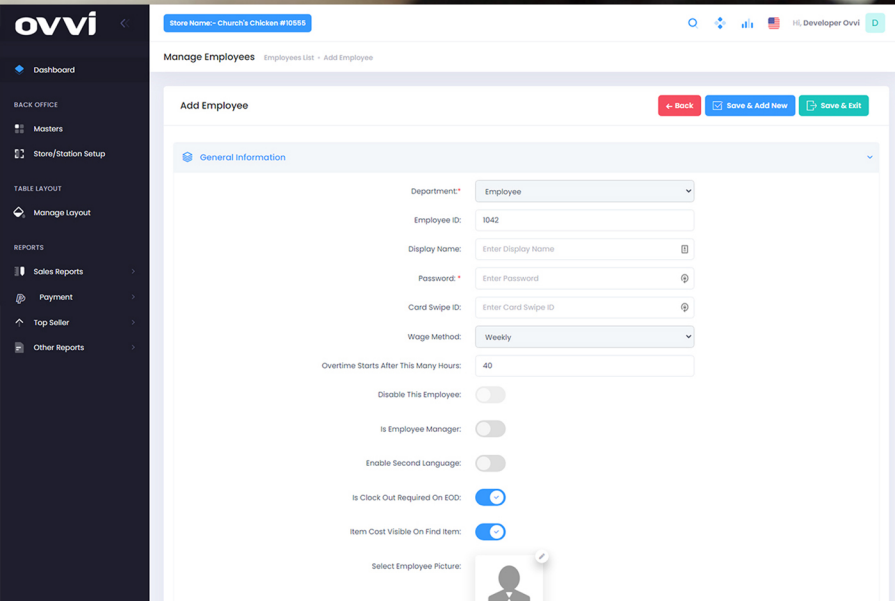

Manage Tips Across All Employees

Keep your staff and finances in balance. Ovvi's intelligent tip tracking and reconciling makes it simple to find what each employee has made in tips or commissions.

Employee Scorecards

Help your employees flourish with performance-based insights that helps to understand: Sales, hours worked, covers, tips, and discounts. Empower and inform your employees like never before and start to manage your business better.

Pizza Builder

Ovvi's Pizza software offers a complete pizza platform for owners and managers of pizza restaurants. Whether your pizza business is in one location or a franchise, Ovvi's Pizza module has the flexibility to scale all of your business needs. Ovvi has the ability to select from multiple order types like: delivery, carry-out or dine-in and our unique pizza builder module allows you to add: multiple sizes, crust, sauce and toppings from one easy layout. Ovvi's software has the ability to create ½ and ¼ pizza types and also 1/3rd or 1/4th pizza types.

Ovvi also offers Caller ID Solution, which will store customer information, including allergies and past orders which will help you drive up customer retention and convenience, while setting you apart.

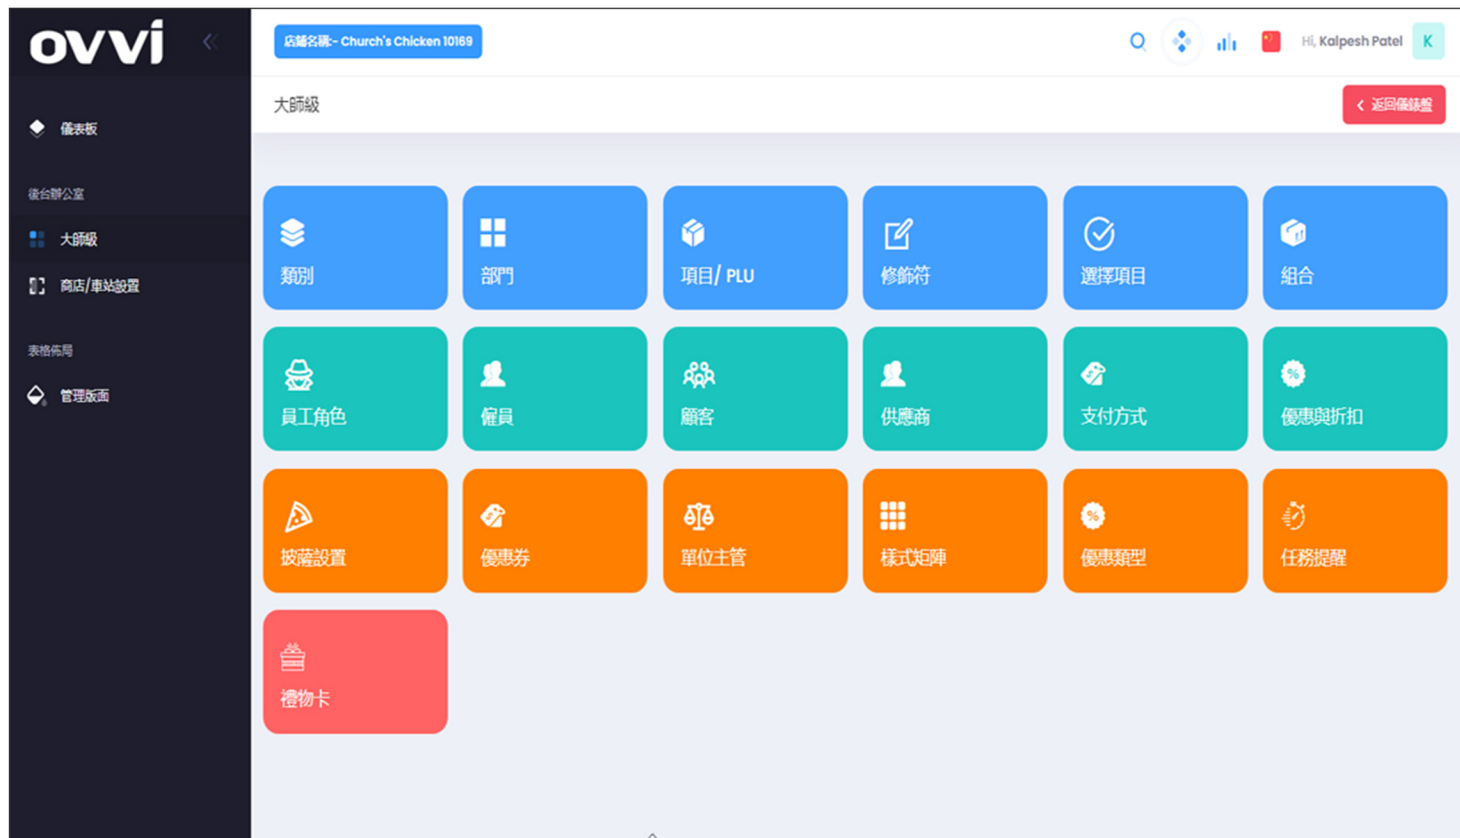

ovvi

Ovvi's Restaurant Software is available in 9 languages - Including: English, Spanish, Korean, Chinese, Vietnamese, Japanese, Thai, French and Hindi.

This works really well with bi-lingual employees; menus are changed to the preferred language of employees based on their login credentials.

Kitchen and Thermal printers can also print in single or dual languages, which will provide ease for bi-lingual employees.

- ENGLISH - HELLO**
- SPANISH - HOLA**
- Thai สวัสดี**
- KOREAN - 여보세요**
- French Bonjour**
- JAPANESE - こんにちは**
- VIETNAMESE - xin chào**
- HINDI - नमस्ते**
- CHINESE - 你好**

Kitchen Display Solution

ovvi

Simplify and speed up the order entry process with our cutting edge kitchen display automation.

- ✓ Ensure guest safety by accommodating dietary restrictions or other modifications
- ✓ Filter orders based on station function
- ✓ Display order arrival time and monitor preparation time
- ✓ Bump, select, and recall orders
- ✓ Indicate the in-queue ticket numbers
- ✓ Available in bump bar and touchscreen setups

KDS Manager

Reporting & Insights

Ovvi offers numerous analytic reports to gain insights on what's driving your business and how to track your sales. With a dashboard that is graphical and mobile friendly you can customize reports to your liking, while also being able to review revenues on a single store or multiple stores; all from one page!

Ovvi's dashboard are customizable so you can tailor information to match your reporting needs and also set up reports to be emailed to you daily.

Some of Most Common Reports

- ✓ KPI – Key Performance Indicator Report
- ✓ Sales Detail Report
- ✓ Sales Summary Report
- ✓ Product Mix Report
- ✓ Top 10 Selling Items
- ✓ Employee Hours and Wages Report
- ✓ Order Exception Report
- ✓ EOD Report
- ✓ Payment Type Report and Many More Analytic Reporting.

Mobile Tablet Ordering and Payments

Ovvi's Mobile handheld tablets are designed to improve guest experiences while helping to speed through your rushes and generate more sales beyond your counter.

Mobile tablet ordering and payment acceptance is designed to facilitate more interaction with guest by speeding through your order and payment process. Orders go to the kitchen in real time, reducing turn times and mistakes which in turn increases staff productivity.

Your employees can spend more time with guests to explain menu items, any promotions at the table or upsell or cross sell additional items or drinks, hence increasing their average ticket and boosting customer satisfaction.

Our seamless mobile payment EMV/NFC Devices enables customers to enter their tips, scan their cards and leave reviews from one easy layout.

Guest Engagement with Gift Card & Loyalty

Enhance or start your loyalty and Reward programs with Ovvi's Gift Card & Loyalty Module.

With Ovvi loyalty, turn every guest into a regular. Link customer profile to built in loyalty rewards bonus point module. Easily earn rewards points with every purchase. Redeem rewards toward future purchase or free items.

With gift cards, the profit is yours once the card has been purchased. Since gift cards carry rolling balances, the remaining cash remains on the card when a customer partially redeems the gift. This can encourage gift card recipients to become repeat customers for your business.

Whether you have a single store or multi store operations our gift card platform works seamless in activating, loading and redeeming value across multiple stores.

With Gift Card Solutions from Ovvi, You Can:

- ✔ Realize an immediate increase in profits
- ✔ Create and encourage add-on sales opportunities
- ✔ Broaden your existing customer base
- ✔ Increase brand recognition and your professional image with custom designs

You can order customized gift cards from : www.ovvihq.com/giftcards

Seamless Accounting and Payroll Integration

Save time while streamlining your operations by integrating your Accounting and Payroll with Ovvi POS.

Ovvi is fully integrated with 10+ Accounting software's which includes

All sales, stock, inventory and product data automatically synchronizes at the end of day or in real time. This saves you time while improving accuracy in the back end of your business operations.

Ovvi is also connected with 10+ payroll processing companies like

Our direct payroll integration features a clock in/out function that not only logs the exact hours of each staff member works, but also calculates their gross amounts and tips.

Direct Integrations for Smooth, Rapid Door-to-Door Delivery.

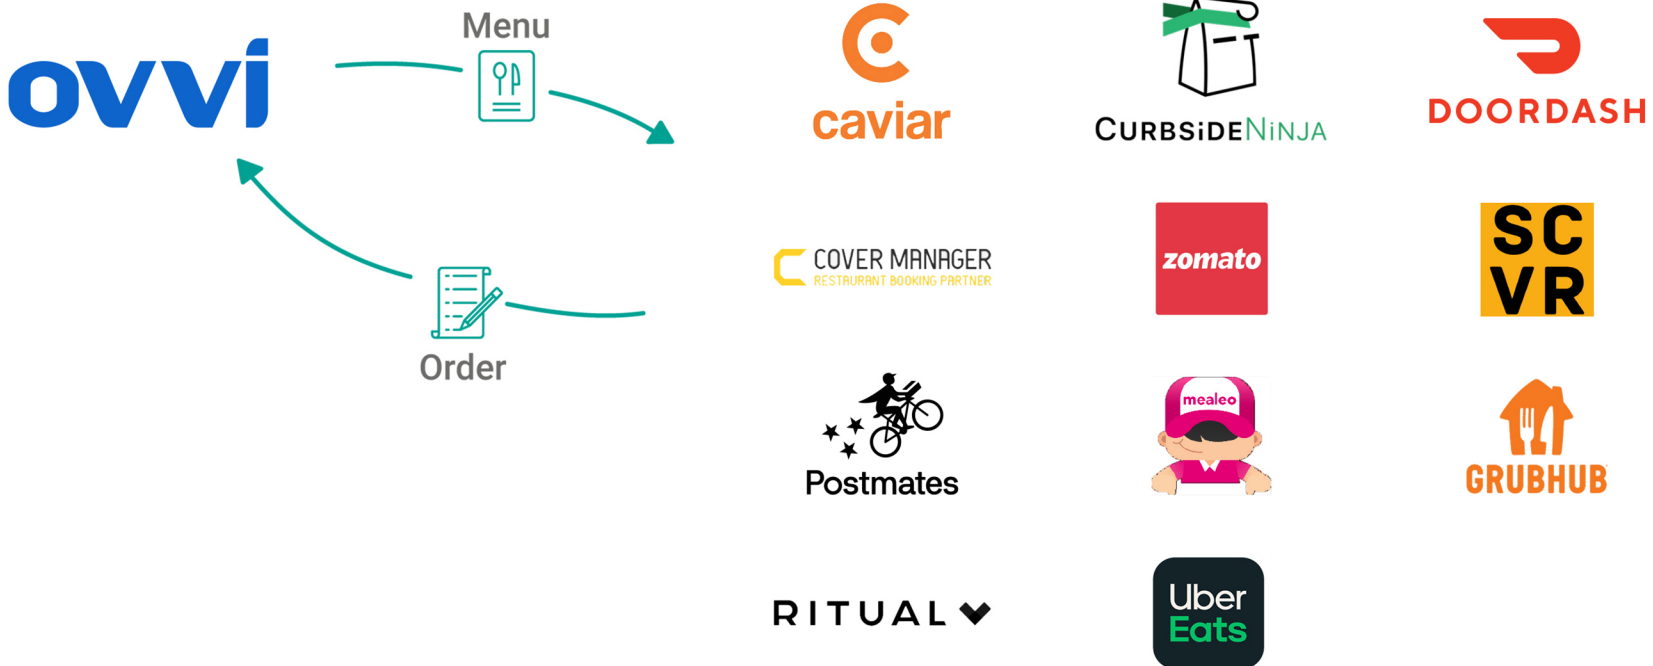

Ovvi integrates directly with leading online delivery systems and services to sync order activity across their app and into your kitchen.

Maximize efficiency and counterspace via a single command center queuing your order-to-delivery pipeline.

You've seen the chaos before: a tablet (or three) on every surface and multiple kitchen printers each doing its own thing. With Ovvi, you're in control of the customer experience – and it is always from one simple command center. With Ovvi's unified ecosystem, orders come into our software and then get routed to kitchen printers with one easy layout.

Insights and Analytic reports can showcase data sets like: total customers to total online sales across different delivery apps to gross profits.

25+ Integrations

Connect DAVO to OVVI. Never worry about sales tax again.

ovvi

DAVO

Automate your sales tax.

- ✓ Sets aside sales tax daily
- ✓ Files and pays, on time & in full
- ✓ Guaranteed

DAVO uses your OVVI POS sales data to set aside the amount of sales tax you collect then files and pays your taxes on time and in full. It's completely automatic and fully guaranteed – so you won't have to do (or worry about) a thing.

Simple, seamless integration with OVVI

Get DAVO by filling out the form above or from your OVVI POS. After ensuring your sales tax rate is properly configured and completing an easy, 5-minute set up, you'll never need to touch it again. DAVO will run in the background and take care of every step of the sales tax process.

Continue to enter sales within OVVI

With DAVO, you won't need to do anything differently. No extra buttons to push or steps to take. Just enter your sales like you normally do.

DAVO collects and sets aside sales tax

DAVO uses data from your OVVI to set aside the exact amount of sales tax you collect daily. Sales tax is then transferred to DAVO's secure tax holding account.

DAVO automatically files your state sales tax

Whenever your sales tax is due, DAVO will automatically file your taxes with the state, guaranteeing they'll be on time.

DAVO automatically pays your state sales tax

Using the money it set aside daily, DAVO automatically pays the amount of sales tax you owe to the state, guaranteeing they're paid in full.

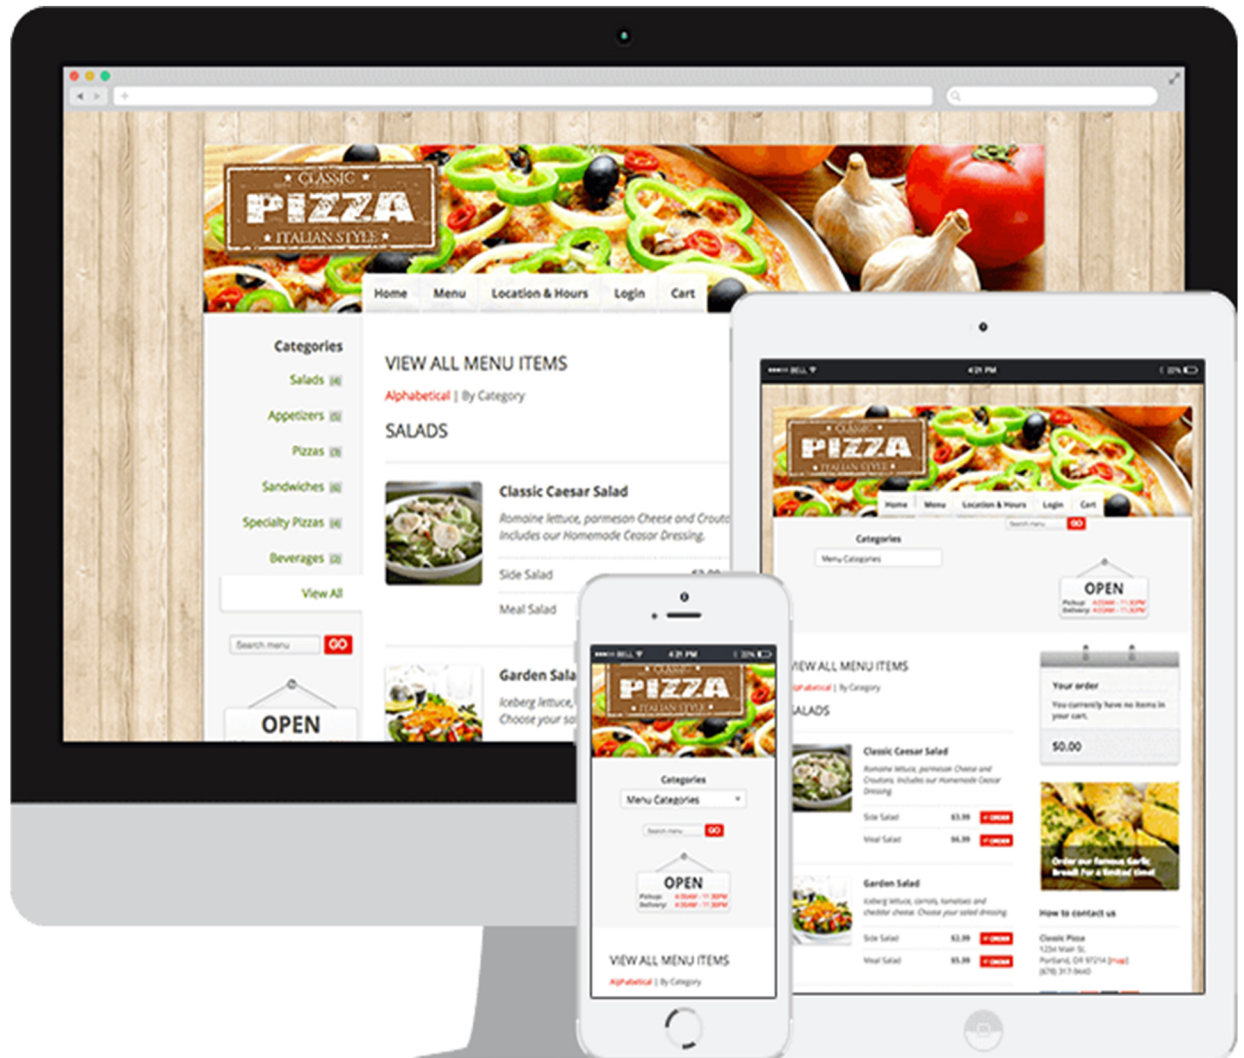

BUILD YOUR RESTAURANT A BRANDED ONLINE ORDERING SYSTEM

Streamline your Online, To-Go business, increase sales and build customer loyalty with smarter food ordering software.

Building customer retention and providing customers with the flexibility to access online ordering is essential in today's environment.

Ovvi has an online ordering platform integrated into our POS to help make online ordering seamless for your customers. Business owners get access to a unique URL and can customize their website to their liking. Orders can take place through mobile apps, a website, or a website integration to Ovvi's POS allowing you to keep the revenue flowing.

<https://orders.ovvihq.com/restaurantname>

Streamline your sales at checkout by enabling integrated payments. Accept all the ways your customers prefer to pay, whether it be in-store, online or mobile and on-the go. Ovvi integrates with leading payment providers for a seamless checkout experience.

Ovvi is compatible with 10+ payment processors like First Data, TSYS, Global Payments, Worldpay and many more.

Ovvi smart payment solution allows customers to pay using their mobile phones using Apple Pay or G-Pay. Our intuitive pay at the table payment modules enables customers to enter tips, scan their own cards and leave reviews from one easy layout.

What Our Clients Say

Ovvi POS is easy to work with. The back office and menu screens are very easy to setup and understand. Creating new menu items and adding modifiers works well and its very streamlines. This software has lots of features and the best part is customer loyalty and gift cards are built in

We were looking for a mobile tablet solution for our exclusive steak house and Ovvi delivered the best solution available with our budget. Now with their support, we are running 20 tablets and our average ticket amounts have gone higher and our wait times have gone lower. Very happy.

We have always received Great Service and Support from Ovvi tech support specialist. They always pick up the phone and resolve issues in a timely manner. Very impressed.

Great POS System – We had different POS systems in our Church's chicken stores and have consolidated to Ovvi POS. We are very happy with this change. They have a great multi store dashboard where we can monitor all 11 store information under one login and their tech support is top notch.

Attentive & Accommodating – The Staff at Ovvi has always been accommodating and attentive to our unique business needs. We always feel like a priority and the team has gone above and beyond to help our company over the years.
