# Fast Track your Business with Ovvi's Smart POS Solution

Ovvi's core software is made for retail and provides support to broad variety of retail concepts and work flows. Retail Point of Sale Systems do much more than the typical POS cash register. Standard cash registers simply act as a place to store money, but in comparison, a customized retail POS system bundled with a retail POS hardware and software will allow your business to do so much more. **MEET OVVI!** Ovvi will help your retail increase efficiency and eliminate waste in supplies and manpower. Have all your retail stores important information in one complete and integrated system. Take advantage of all of the crossover information that Ovvi provides and that you will need to make the right decisions to grow your business.

## Simple Order & Check Out Process

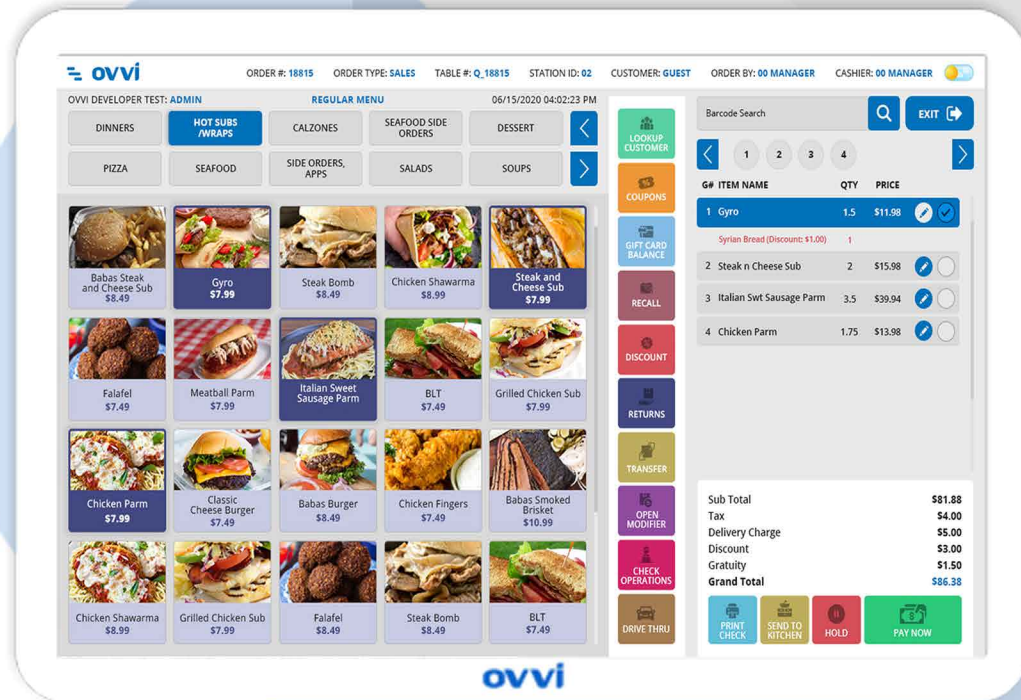

ovvi

Ovvi's easy order entry process provides the ability to quickly scan product bar codes and create faster check-out process.

Customized menu items by adding pictures on buttons or different font size or change color of button. Create Custom buttons for departments and ability to select items from A-Z selection to streamline and speed up order entry and selection process.

Quickly pull a product up on your screen at order screen with an item search tool. Ovvi's systems has the ability to select multiple packaging sizes by single item selection for easy order entry process.

Quick and easy check out process with auto amount selection for food stamps and regular items. Ability to split check by payment options.

The screenshot displays the Ovvi POS interface. At the top, it shows order details: ORDER #: 18815, ORDER TYPE: SALES, TABLE #: Q\_18815, STATION ID: 02, CUSTOMER: GUEST, ORDER BY: 00 MANAGER, and CASHIER: 00 MANAGER. The date and time are 06/15/2020 04:02:23 PM. The interface is divided into several sections:

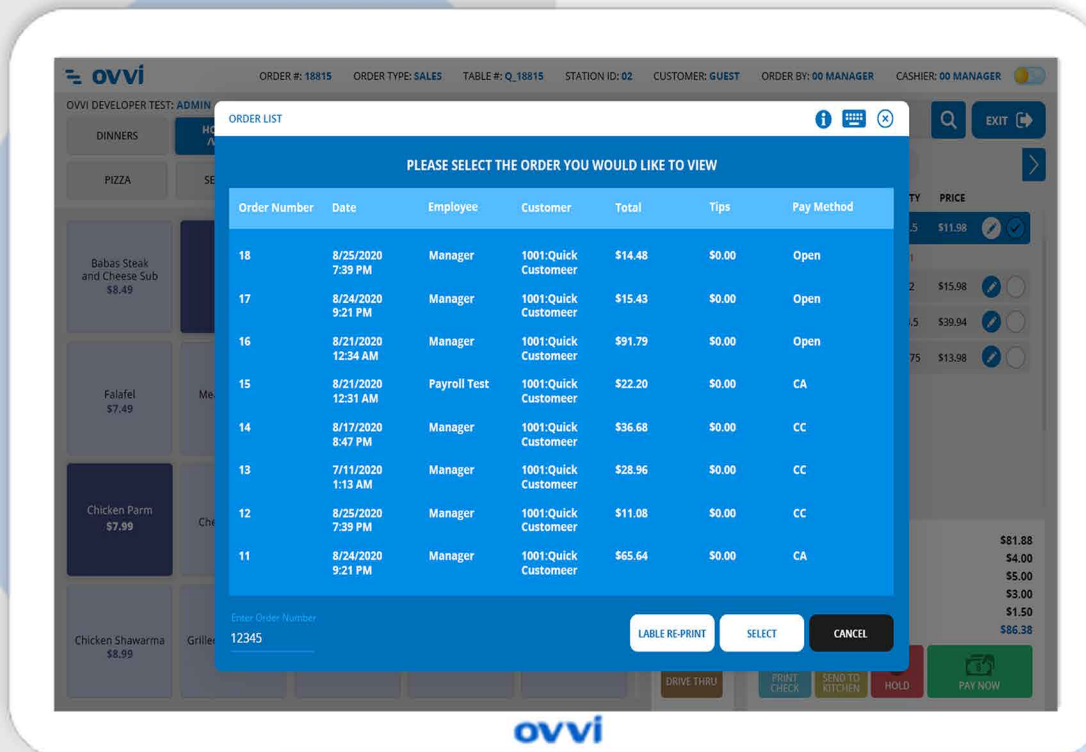

- Menu Grid:** A grid of food items with images and prices. Categories include DINNERS, HOT SUBS /WRAPS, CALZONES, SEAFOOD SIDE ORDERS, DESSERT, PIZZA, SEAFOOD, SIDE ORDERS, APPS, SALADS, and SOUPS. Items shown include Babas Steak and Cheese Sub (\$8.49), Gyro (\$7.99), Steak Bomb (\$8.49), Chicken Shawarma (\$8.99), Steak and Cheese Sub (\$7.99), Falafel (\$7.49), Meatball Parm (\$7.99), Italian Sweet Sausage Parm, BLT (\$7.49), Grilled Chicken Sub (\$7.99), Chicken Parm (\$7.99), Classic Cheese Burger (\$7.49), Babas Burger (\$8.49), Chicken Fingers (\$7.49), Babas Smoked Brisket (\$10.99), Chicken Shawarma (\$8.99), Grilled Chicken Sub (\$7.99), Falafel (\$8.49), Steak Bomb (\$8.49), and BLT (\$7.49).
- Order List:** A list of items added to the order with columns for item name, quantity, and price. Items include: 1 Gyro (1.5, \$11.98), 2 Steak n Cheese Sub (2, \$15.98), 3 Italian Svt Sausage Parm (3.5, \$39.94), and 4 Chicken Parm (1.75, \$13.98). A discount for Syrian Bread is also shown.
- Payment Summary:** A summary of the order total: Sub Total (\$81.88), Tax (\$4.00), Delivery Charge (\$5.00), Discount (\$3.00), and Gratuity (\$1.50), resulting in a Grand Total of \$86.38.
- Navigation and Tools:** A sidebar on the right contains various icons for customer lookup, coupons, gift card balance, recall, discount, returns, transfer, open modifier, check operations, and drive thru. At the bottom, there are buttons for 'PRINT CHECK', 'SEND TO KITCHEN', 'HOLD', and 'PAY NOW'.

## Return Item Process

Reduce customer wait times when you process itemized exchanges and returns in a single transaction on the retail POS. Simply scan the product/item or invoice bar code to pull an order and return single item or multiple items.

Track all return items in detail and replenish inventory automatically in the system to better track and manage inventory.

Keep your customers coming back by issuing store credit instead of refunds. Ovvi's systems has the ability to print a unique bar code for store credits.

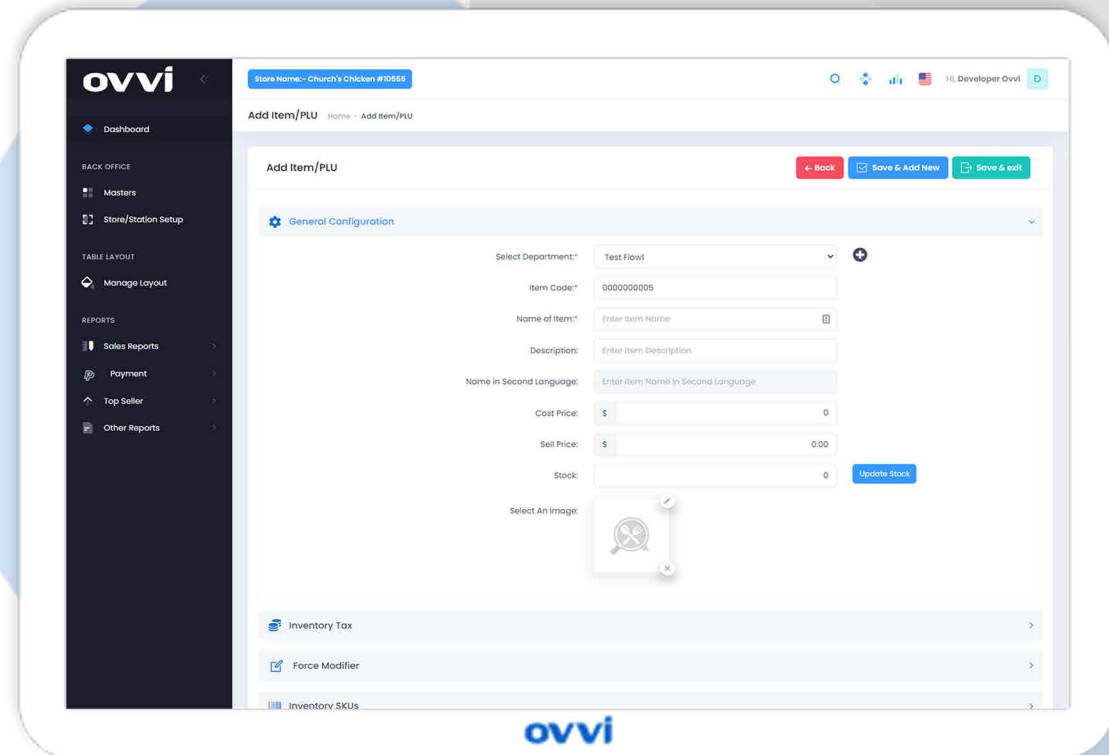

# Flawless Inventory Management

ovvi

Manage & Maintain inventory items with multiple SKUs, bar codes and multiple pricing products. Ovvi's software has the ability to keep stock control at its finest. Manage all your inventory in one place. Use our stock receive and PO modules to accurately order and receive inventory stock. Ovvi's software has built in low quantity triggers to help you never run out of products.

## Some common features of our inventory management module:

- ✓ Add unlimited items& departments
- ✓ Add multiple bar codes for an item
- ✓ Manage vendors with item respective part number
- ✓ Create and print bar code labels
- ✓ Add unit conversion for single sale or multiple package sale
- ✓ Add and manage Food Stamp items
- ✓ Add item categories
- ✓ Add Multiple taxes for items and sell items by tax inclusive pricing
- ✓ Add Mix-Match Pricing for multiple items

The screenshot displays the Ovvi software interface for adding a new item. The top navigation bar shows the store name 'Church's Chicken #10555' and the user 'Developer Ovvi'. The main form is titled 'Add Item/PLU' and includes a sidebar with navigation options like Dashboard, Masters, and Reports. The form fields include:

- Select Department: Test Food
- Item Code: 000000005
- Name of Item: Enter Item Name
- Description: Enter Item Description
- Name in Second Language: Enter Item Name in Second Language
- Cost Price: \$ 0
- Sell Price: \$ 0.00
- Stock: 0

Buttons for 'Back', 'Save & Add New', 'Save & Exit', and 'Update Stock' are visible. An 'Inventory Tax' section is also present at the bottom.

ovvi

## Hassel Free Employee Management

Ovvi's Employee Management platform offers complete payroll and wage calculation solution. In it, there is one centralized hub for payroll and HR enables you to seamlessly track employee clock in and clock out operations.

### Features:

#### Create Employee Profiles & Permissions

Create employees from our online cloud solution or POS with ease where you can also set standard and overtime wages. Keep your peace of mind with Ovvi's activity logs and secure employee permission sets for your POS and Dashboard.

#### Time Cards & Payroll

View and edit employee time cards from your POS, keeping a close tab on schedules, wages, and permissions.

#### Easy Scheduling & Shift Management

You can schedule and publish your shift schedules for weeks or months in advance. Gain immediate insight into the times worked across all locations, as well as employee time off schedules.

#### Employee Scorecards

Help your employees flourish with performance-based insights that helps to understand: Sales, hours worked, covers, tips, and discounts. Empower and inform your employees like never before and start to manage your business better.

Ovvi's Retail Software is available in 9 languages - Including: English, Spanish, Korean, Chinese, Vietnamese, Japanese, Thai, French and Hindi.

This works really well with bi-lingual employees; menus are changed to the preferred language of employees based on their login credentials.

Kitchen and Thermal printers can also print in single or dual languages, which will provide ease for bi-lingual employees.

- ENGLISH - HELLO**
- SPANISH - HOLA**
- Thai สวัสดี**
- KOREAN - 여보세요**
- French Bonjour**
- JAPANESE - こんにちは**
- VIETNAMESE - xin chào**
- HINDI - नमस्ते**
- CHINESE - 你好**

## Reporting & Insights

Ovvi offers numerous analytic reports to gain insights on what's driving your business and how to track your sales. With a dashboard that is graphical and mobile friendly you can customize reports to your liking, while also being able to review revenues on a single store or multiple stores; all from one page!

Ovvi's dashboard are customizable so you can tailor information to match your reporting needs and also set up reports to be emailed to you daily.

### Some of Most Common Reports

- ✓ KPI – Key Performance Indicator Report
- ✓ Sales Detail Report
- ✓ Sales Summary Report
- ✓ Product Mix Report
- ✓ Top 10 Selling Items
- ✓ Employee Hours and Wages Report
- ✓ Order Exception Report
- ✓ EOD Report
- ✓ Payment Type Report and Many More Analytic Reporting.

## Guest Engagement with Gift Card & Loyalty

Enhance or start your loyalty and Reward programs with Ovvi's Gift Card & Loyalty Module.

With Ovvi loyalty, turn every guest into a regular. Link customer profile to built in loyalty rewards bonus point module. Easily earn rewards points with every purchase. Redeem rewards toward future purchase or free items.

With gift cards, the profit is yours once the card has been purchased. Since gift cards carry rolling balances, the remaining cash remains on the card when a customer partially redeems the gift. This can encourage gift card recipients to become repeat customers for your business.

Whether you have a single store or multi store operations our gift card platform works seamless in activating, loading and redeeming value across multiple stores.

### With Gift Card Solutions from Ovvi, You Can:

- ✔ Realize an immediate increase in profits
- ✔ Create and encourage add-on sales opportunities
- ✔ Broaden your existing customer base
- ✔ Increase brand recognition and your professional image with custom designs

You can order customized gift cards from : [www.ovvihq.com/giftcards](http://www.ovvihq.com/giftcards)

## Seamless Accounting and Payroll Integration

ovvi

Save time while streamlining your operations by integrating your Accounting and Payroll with Ovvi POS.

Ovvi is fully integrated with 10+ Accounting software's which includes

All sales, stock, inventory and product data automatically synchronizes at the end of day or in real time. This saves you time while improving accuracy in the back end of your business operations.

Ovvi is also connected with 10+ payroll processing companies like

Our direct payroll integration features a clock in/out function that not only logs the exact hours of each staff member works, but also calculates their gross amounts and tips.

Connect DAVO to OVVI. Never worry about sales tax again.

ovvi

# DAVO

## Automate your sales tax.

- ✓ Sets aside sales tax daily
- ✓ Files and pays, on time & in full
- ✓ Guaranteed

DAVO uses your OVVI POS sales data to set aside the amount of sales tax you collect then files and pays your taxes on time and in full. It's completely automatic and fully guaranteed – so you won't have to do (or worry about) a thing.

## Simple, seamless integration with OVVI

Get DAVO by filling out the form above or from your OVVI POS. After ensuring your sales tax rate is properly configured and completing an easy, 5-minute set up, you'll never need to touch it again. DAVO will run in the background and take care of every step of the sales tax process.

### Continue to enter sales within OVVI

With DAVO, you won't need to do anything differently. No extra buttons to push or steps to take. Just enter your sales like you normally do.

### DAVO collects and sets aside sales tax

DAVO uses data from your OVVI to set aside the exact amount of sales tax you collect daily. Sales tax is then transferred to DAVO's secure tax holding account.

### DAVO automatically files your state sales tax

Whenever your sales tax is due, DAVO will automatically file your taxes with the state, guaranteeing they'll be on time.

### DAVO automatically pays your state sales tax

Using the money it set aside daily, DAVO automatically pays the amount of sales tax you owe to the state, guaranteeing they're paid in full.

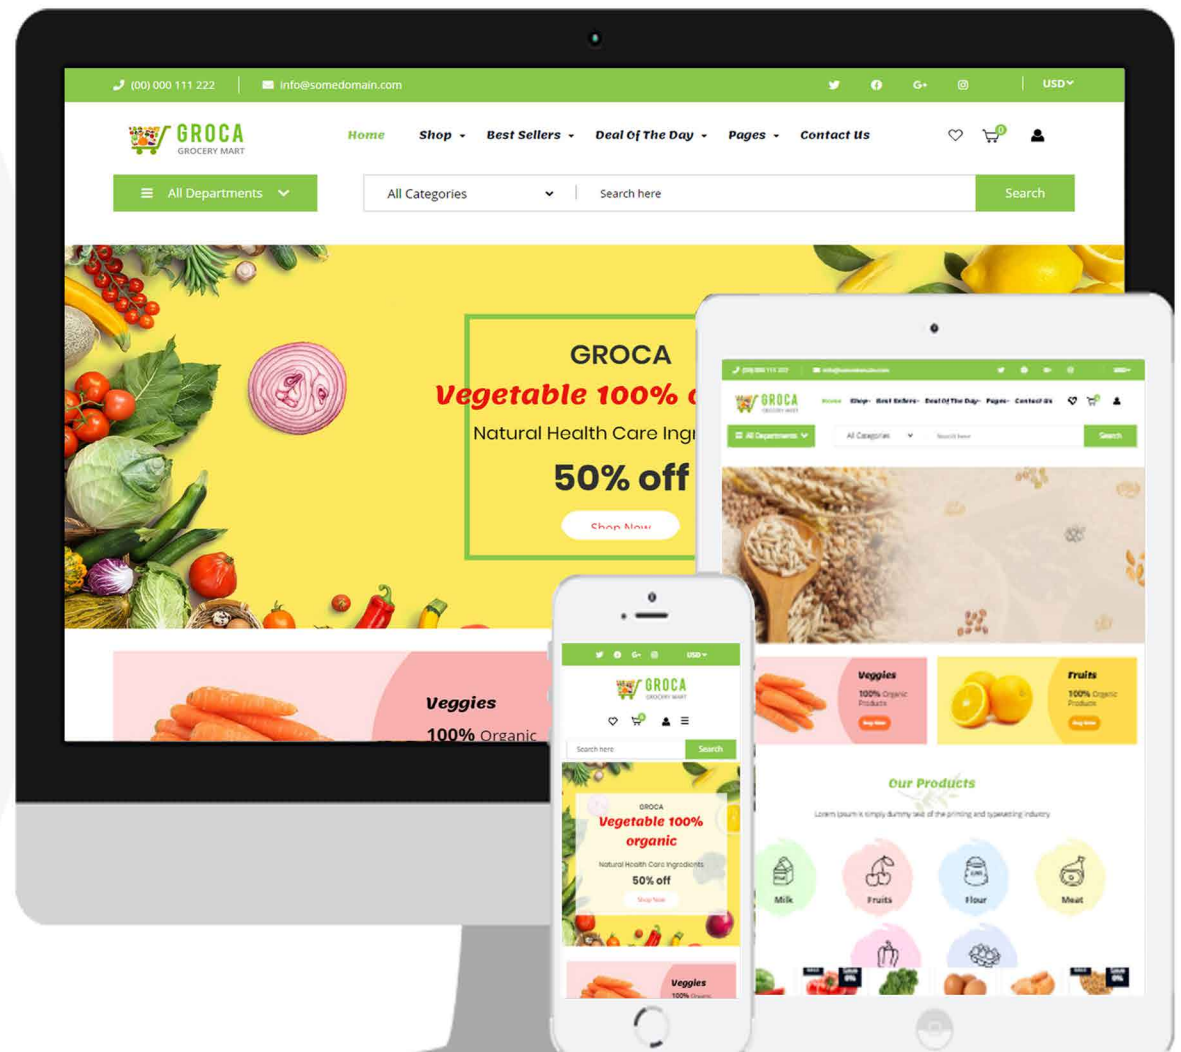

## BUILD YOUR RETAIL STORE A BRANDED ONLINE ORDERING SYSTEM

Streamline your Online, To-Go business, increase sales and build customer loyalty with smarter food ordering software.

Building customer retention and providing customers with the flexibility to access online ordering is essential in today's environment.

Ovvi has an online ordering platform integrated into our POS to help make online ordering seamless for your customers. Business owners get access to a unique URL and can customize their website to their liking. Orders can take place through mobile apps, a website, or a website integration to Ovvi's POS allowing you to keep the revenue flowing.

<https://orders.ovvihq.com/retailname>

Streamline your sales at checkout by enabling integrated payments. Accept all the ways your customers prefer to pay, whether it be in-store, online or mobile and on-the go. Ovvi integrates with leading payment providers for a seamless checkout experience.

Ovvi is compatible with 10+ payment processors like First Data, TSYS, Global Payments, Worldpay and many more.

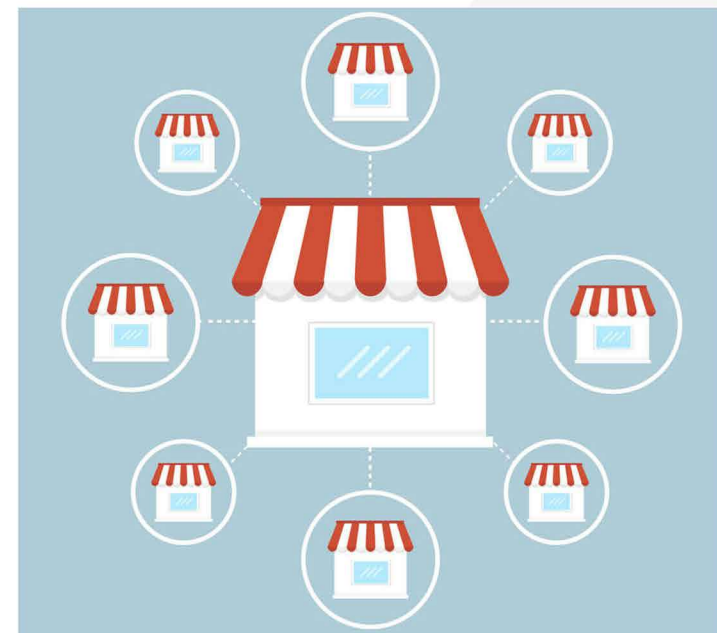

Ovvi smart payment solution allows customers to pay using their mobile phones using Apple Pay or G-Pay. Our intuitive pay at the table payment modules enables customers to enter tips, scan their own cards and leave reviews from one easy layout.

With our semi cloud-based software, sleek hardware, and a fully integrated partner network, Ovvi helps mutli-unit brands manage and grow their business, while having the guests coming back

## What Our Clients Say

We have been using Ovvi POS at our Indian Supermarket for over 2 years. The system works great and Ovvi's team has done several enhancements over the past years to meet our needs as super market operators. This is a good company to work with. We would highly recommend Ovvi POS to any grocery store or super market operator.

Ovvi's retail software works well at our healthy food store. The ability to print our own bar codes have increased our tracking and revenue by almost 18%. We can sell more products by bundling them together and putting a bar code on the packaging. Very easy to use.

Ovvi POS is easy to use and operate. Ovvi customer support team is great. They always pick up our calls and are very professional and very knowledgeable on their product.

le macaron  
french pastries

Excellent POS with good looking equipment and easy setup. White color looks very modern. So far so good on the software for our liquor store.

My Food mart has been with Ovvi for 1 year & they have taken proper care of every issue. We are really impressed with their quality tech support who assist us in the best possible way. I would recommend this company to other Retail shops too.
